Message from President

Jayceettes Rise and Blossom in building a most high-impact chapter!

Upon writing this piece of message, I am about to complete two-third of my presidency. It has been a very fruitful eight months with my dear members from planning to adjusting, from toning the right direction to execution, I am very thankful to all the efforts and dedication from each and every Jayceettes exemplified by the brilliant milestones so far adhering to our theme this year “We Rise, We Blossom!”, as well as echoing the theme “Be the Change” of JCI Hong Kong this year..

Riding on the success from last year, the Jayceettes-initiated project Business on Stilettos 2022: Global Female Entrepreneur Award. This project consists of 13 workshops where 39 outstanding and erudite entrepreneurs are invited to share their personal experience and knowledge. To support female entrepreneurs in business through this project, in particular to foster business connections and opportunities, rebuild the economy during this difficult economic recession, and build a Female Entrepreneur Hub across the globe.

The Jayceettes spirit did not stop but went beyond by introducing the brand new project Care & Dare 2022: Label “Labelling” - Let’s Respect. Targeting various “LABELLED” groups in society which might be encountering different discrimination issues because of the tags placed by others. By executing this project, we ought to raise the public awareness of social inclusion, as well as the problems of occupational and gender inequality. As a caring company, we invited some business entities that share our same value to participate in this project, in order to maximise beneficiary, raise public awareness, reduce inequality, and minimise the subsequent problems might have caused by any kind of discrimination.

Besides the news, we also brought one of the Jayceettes-signature projects back this year: The 7th Hong Kong Master of Ceremony Competition. The competition provided comprehensive and relevant training sessions where participants can learn the essential emcee techniques and the attitude. This equipped them for their business’ needs as a professional emcee. For individual development, the competition provided an opportunity to participants to develop their self confidence, polish their presentation skills and train their crisis management skills.

It would mean nothing without the tremendous support and witnesses by our members, senior members, Jayceettes signifies passion, persistence and most of all, our indivisible sisterhood. May I also take this opportunity to thank our Honorary Life President, Past President and senior members for the unfailing support all along.

Together, let’s continue support Jayceettes Rise and Blossom in building a most high-impact chapter!

Message from National President

“Not all of us can do great things, but we can do small things with great love” – Mother Teresa.

This is how JCI works.

Since I started taking up senior roles in JCI, I have been asked so many times by members, what impact we can make to change the world when we seems to be so small and insignificant? My favourite answer is, we don't need to do big things, but we have to start doing important things. Even if they are small, with faith and our consistency, we can definitely influence others and expand your power.

Love is the trick to make miracles happen. When we do small things with great love, and then we put them together, we can create a big influence. And this is in line with JCI Hong Kong's slogan this year, if we all just leave our hesitation behind, everyone starts to “be the Change”, then we can drive much more positive impact.

No one can stop the Jayceettes to bloom and shine, neither the pandemic nor any other challenges. With the love of President Jean, she brings the best out of her members, and I can see you girls are making good progress on creating positive change. Not only for the society, for the chapter, but also for your own self.

During the journey of growth, I am sure that you should have gone through some tough times. But always remember, challenges are inevitable, an outstanding leader can keep calm and stay focus. Never push yourself too hard, a blossom cannot be forced open, be gentle with yourself, and with love and care, you will bloom when you are blooming ready.

Ladies, go ahead to reach the new height! You can do it! I look forward to meeting you to round up and to conclude what we've achieved this year when the year-end comes.

*Message from

Be the Change, We Blossom

Under the leadership of President Jean, JCI Hong Kong Jayceettes have done an amazing job and these elegant women have blossomed through the flagship project in 2022.

Business on Stilettos 2022 has escalated to Global Female Entrepreneur Award. It successfully connected 11 chapters over the world from 12 countries. A series of business workshops delivered by business leaders from different industries has been conducted to empower women entrepreneurs.

The 7th Hong Kong Master of Ceremony Competition has provided opportunities to young citizens to rise and blossom. There were several training and sharing by professionals on risk management, critical thinking and presentation skills. And these valuable experiences will be the foundation to pursue their dreams.

Care and Dare 2022: Label Labelling has raised the awareness of discrimination. There were a series of workshops educating us to build right values and to help us release the stress in daily life. A lot of interviews on different parties, including SEN children, LGBT, South Asian, physically disabled, working mum and deaf-mute person etc., have conducted and successfully educated the importance of diversity and inclusion.

All Jayceetes should be proud of themselves for all these amazing efforts they have involved and the positive impact that they have created. We Rise, We Blossom!, they perfectly demonstrated it by action.

Let's Be the Change, I wish JCI Hong Kong Jayceettes all the best and good health in 2022.

COVER STORY

Rabeea Yeung

WE BLOSSOM
A PROFESSIONAL EMCEE

“

**You have to
have faith.**

”

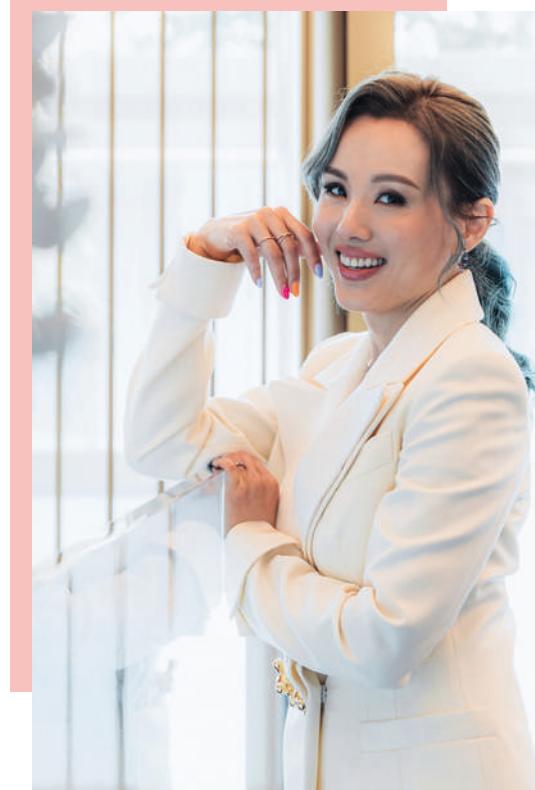

Rabeea, a professional and famous emcee. She was born in Hong Kong and grew up in Canada. Rabeea can speak English fluently. What motivates Rabeea to participate in Miss Hong Kong Pageant? “I participated in Miss Hong Kong Pageant in 2003 in order to meet my idol Mr. Aaron Kwok” Rabeea said happily. After she won the 1st runner-up in Miss Hong Kong Pageant, she started her journey to becoming a TV host and actress.

The Motivation to start her Career as an Emcee

Being a TV host at a famous Cantonese television channel, Rabeea faced many challenges at the beginning. Due to the language challenges,

Rabeea did not enjoy being a TV host at the beginning. She felt frustrated when she needed to remember a lot of Chinese words and to speak fluently in front of the camera. She tried her best to overcome these challenges under great pressure.

Chance comes when she starts hosting an English TV show at TVB Pearl channel. She is then invited to host various brands of live shows or ceremonies using English. She gains lots of confidence by then and starts her career as an Emcee.

The Value of Working Moms. Busy Working Life but Very Fulfilling.

Rabeea had a strong family mindset when she was young, therefore she could adapt to the change of her role easily. When she was pregnant, she worried about the future of her career. She was overly concerned that her clients won't invite her as Emcee anymore, she was blessed that some clients could postpone the event dates. Finally, Rabeea decided to strive for a balance between work and family. "We need to spend time free accompanying our children, even though we are working moms" Rabeea said. The workload of an Emcee is quite flexible. She can prepare her MC scripts at home, which do not take up so much working hours. She can have more time with her children. She enjoys spending time with her children including driving her daughter to school and bringing her son to playgroups every weekday. She is thankful for what she has.

How to Overcome the Biggest Challenges during the Pandemic?

COVID-19 has had an impact on almost all aspects of life. The nature of the emcee industry has been transformed from physical to virtual. The industry becomes more competitive nowadays. "Being a professional Emcee, memorizing the script is not enough, crisis management skill is equally important. Some technical or environmental accidents would occur in live shows or online shows. You have to solve it as quickly as you can professionally. The key is to remember the rundown and scripts before the shows." Rabeea said.

Rabeea worried about her emcee career during the pandemic period. " I had thirteen shows per week during the peak season. During the pandemic period, I had no jobs" Rabeea recalled. In order to overcome these tough situations, Rabeea focused on keeping herself a healthy body by doing more physical exercises. At the same time, she spent more time with her children.

Never Stop Learning

Learning is a lifelong process necessary for self-growth and success. This is true with any path you choose to pursue in life. With that in mind, Rabeea keeps motivating herself. She has a positive attitude. She is inspired by both her work partners and the new generation. She is grateful to see everyone shine on the stage.

JAYCEETTES ACADEMY “BLOOM FROM INSIDE OUT”

The February Fellowship Gathering with a theme of Blossoming Fragrance was successfully held via Zoom on February 12, 2022 with over 30 Jayceettes and friends. The participants selected three essential oils and made their natural perfume with a unique fragrance in their favorite color. In this 2-hour DIY workshop, they learnt the basic knowledge of aromatherapy and perfume.

NEW PARTNERSHIP FOR JAYCEETTES ACADEMY

JCI Hong Kong Jayceettes continue to expand partnership and joint chapter opportunities with other JCI chapters. This year, our Jayceettes Academy collaborated with Asia and the Pacific JCI chapters including JCI Medan, JCI West Sumatra, JCI Bandar Klang, JCI Targu-Mures, JCI South Key, JCI Cebu Sinulog, JCI Bauhinia and JCI Labuan. More than 10 official JCI courses were organized, and we engaged different members as trainers for our JCI training. Knowledge sharing and ideas exchange is our Leadership Development theme, we aim to let our members have more positive changes and get to know the culture of different chapters.

We organized the JCI Facilitator course, co-hosting with JCI Ocean. We are honored to have our Past President Ellen Chung as our head trainer together with Alyse Chu from JCI Peninsula. We also had Adam Hoi from JCI Peninsula and Dickey Tang from JCI City as assistant trainer. They developed an innovative and new training method to empower and upskill our members as a great leader and motivated facilitator.

Care & Dare 2022: Label Labelling, Let's Respect OC Team

Hong Kong is one of the most multicultural cities in East Asia but still far from inclusion. From the required survey, apart from the increasing cases of discrimination, it also showed that the awareness of equal opportunities' education steadily dropped from 84% in 2012, 81.8% in 2015 to 60% in 2021. Therefore, Community Development team (CD Team) launched Care & Dare 2022: Label “Labelling” - Let’s Respect in 2022 to promote social inclusion and reduce inequality among the public and to spread a message of ‘Everyone is unique, I am who I am’. The key topics include Disability, Single Mums, LGBT+ and Minorities.

This project objectives are to increase the awareness of social inclusion; to support and spread the message of “No Labelling, Be Respectful” and to educate the public and promote the importance of equal opportunities.

OPERATION BROTHERHOOD: HONG KONG MIGRANT WORKERS

“The brotherhood of men transcends the sovereignty of nations.”

In view of the development of COVID-19 epidemic situation in Hong Kong earlier this year, the international affairs team (IA Team) launched a series of initiatives to provide support and care to the people in need, especially the underprivileged families and migrant workers who have limited access to healthcare and supplies in Hong Kong.

The distressed situation of migrant workers has drawn many local and international media attention. Their lack of safe shelters and limited access to healthcare and supplies has posed significant challenges in their recovery, their employment and the community overall.

Hello from the other side,

"A friend is one who overlooks your broken fence and admires the flowers in your garden (but definitely not the butterflies!)". It's pretty hard to trace back when did we get to know each other, or maybe we never actually did lol. I didn't expect that I could have met someone like you when I first join the Jayceettes family; I could just be myself when we hang around (I am not a very emotional person, so this is as good as it gets).

I still remember the other time when we went to the Hong Kong Disneyland together under the red rainstorm warning signal, we had so much fun and enjoyed a great time though we were completely soaked from head to toe. I guess we could hardly experience such crazy moment again riding the roller coaster in the rain, despite the bitter twist of fate in life which might bring us up and down like it did!

I am glad to have you in my Jayceettes journey and I hope we could keep it beyond the JC boundaries. Remember that you will always have us on your back, cause that's what a friend supposed to do!

My pen is blue, my friend is you. XOXO

*Cheers,
Tiffany*

Hello from the other side,

Still remember our first conversation was I accidentally bumped into you on the street, at that time we barely know each other's name and would know we can be close friends. At first I had reservations about talking to you, as you always have a poker face like an iceberg. But over time as we get to know more about each other, I find many things we have in common, like the same age, have a sister, similar mindset, love drinking, music taste... etc. And you are very kind hearted friend, still remember one time u brought dinner for us and you remembered all our eating habit and preferences, I was literally shocked!

And the fun fact is, until now, we haven't done any project together yet! But it doesn't matter as long as our friendship last!

My pen is blue, my friend is you. XOXO

*Cheers,
Phoebe*

KAOHSIUNG LIGHTHOUSE

Lastly, an amazing place for sunset sight viewing needs to share with you. It's located at the top of Mount Ki-au, and part of the lighthouse was rebuilt in Baroque style. Looking down, you can see the entire Kaohsiung Port. With some wildflowers, it's a good photo-taking spot especially when the ships enter the port. After the sight viewing, you can walk slowly back to the coast and enjoy the coastal view at the end.

Sister Chapter Stories

GANG YUAN BEEF NOODLES

Gang Yuan beef noodle is not the same as the beef noodles I have tried in Taipei before. This broth has a very tangy taste with a cinnamon flavor. The beef is juicy and tender, not tough. The noodles are quite thick and firm, not over mushy and soft after soaking in the broth a lot of time. It is such a mouth-watering dish you must try!

RICE CAKE CITY

A very special local food you should try when you are in Kaohsiung. They serve sticky rice with meats, cucumber, and pork floss. Some restaurants may serve it with soup and steamed fish, a very unique taste not similar to usual, sweet and salty, in a great balance of flavors.

OYSTER DUMPLINGS

Another finger-smacking food needs to share with you. Oyster Dumplings are dumplings with oysters inside, and they are deep-fried. So the outside is very crunchy, the inside is very juicy, and tastes great! Let's try it!
